The graph shows the difference between estimated and actual hours over time. The 'Estimate' (blue line) starts at 60 hours and decreases linearly to 0 by week 35. The 'Burnout' (red line) starts at 60 hours, decreases to 20 hours by week 25, and then remains constant at 20 hours until week 40. The area between the lines is shaded in light red, representing the 'Burnout' gap.

Week	Estimate (Hours left)	Burnout (Hours left)
0	60	60
5	52	52
10	44	44
15	36	36
20	28	28
25	20	20
30	12	20
35	4	20
40	0	20
